

a Compartment recovery

c Largest Level 3 abundance shifts

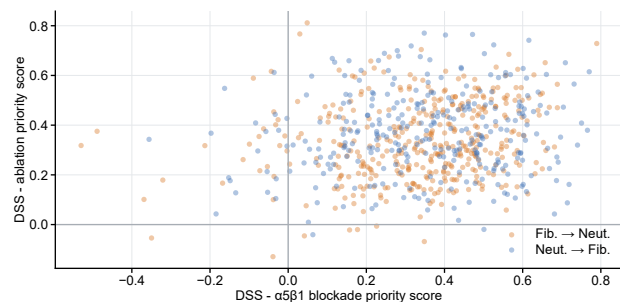

e Within-state epithelial expression

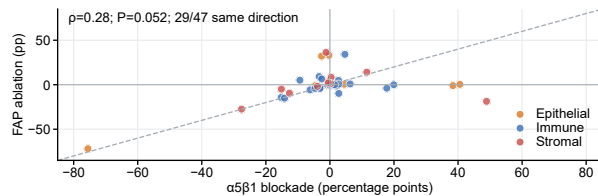

f Interaction concordance

691 routes: $\rho=0.15$, $P=0.00013$; core: 490/502 attenuated

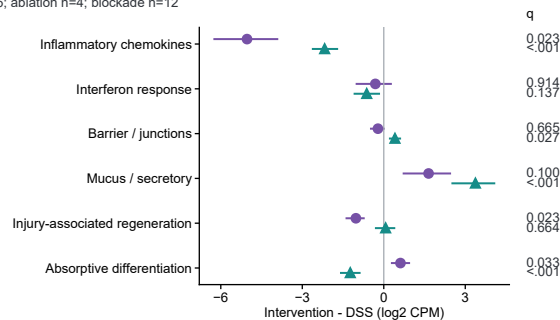

b Level 3 response concordance

d Epithelial functional responses

DSS n=6; ablation n=4; blockade n=12

f Interaction concordance

g Reciprocal signaling routes
